PROFESSIONAL EXPERIENCE

LEAD SOFTWARE ENGINEER | **RESOURCE MANAGER, EPAM SYSTEMS, POLAND** (JANUARY 2023 – TILL)

- Collaborate with project managers and team leaders to understand project needs and align resource allocation with project timelines and goals.
- Managed a team of 10 developers, providing mentorship and guidance on best practices in Engineering and Agile process.
- Assess resource utilization metrics, identify areas for improvement, and implement strategies to enhance productivity and performance.
- Collaborate with stakeholders, including business leaders, project managers, and developers, to understand requirements, define architectural strategies, and ensure alignment with business goals.
- Led the migration of legacy systems to cloud-based architecture, improving system reliability and reducing maintenance costs.

TECHNOLOGY/TOOLS:

- .NET Core, C++, Docker, Kafka, ASP.NET Web API, Azure Functions & App Services, MS Graph API, ReactJS, Angular, Microservices.

SR. MANAGER – DEVELOPMENT, FIS, PUNE, INDIA

(JUNE 2016 – DECEMBER 2022)

- Manage, mentor, grow a team of 15 high-performance engineers and managed the project ownership and client support for products like IntelliMatch Payment Investigation and ISO20022 Reformatter.
- Manage and develop the complete workflow of Capital Market projects, ensuring adherence to development timelines, conducting all mandatory reviews, and successfully releasing projects to production.
- Oversaw the Veracode security checks to ensure application code met stringent security standards, identifying and mitigating vulnerabilities early in the development cycles.
- Oversaw escrow responsibilities, ensuring that source code and critical documentation were securely deposited with a trusted third-party escrow service to safeguard intellectual property and provide continuity assurance for clients.

ACADEMIC CREDENTIALS

Post-Graduate:

Master of Computer Application, 2009
Saurashtra University, Rajkot, Gujarat

Graduation:

Bachelor of Commerce, 2006
Saurashtra University Rajkot, Gujarat

OPEN-SOURCE PROJECTS

MQDotnetclient

Dotnet wrapper on top of official IBM MQDotnetClient library. Built with resilience and transient-fault-handling

XSDService

This will help to convert XSD to JSON.

NgxIsoForm

This form is used to design Angular Reactive Form using any given XSD. The primary use of this UI library is to design ISO 20022 forms dynamically.

NgxXmlMessage

This form is used to design Angular readonly Form using any given XML/ISO 20022 messages.

Msgraph-Email

Python client library to read/send O365 or Exchange Server emails using Microsoft Graph API
